

To all at The Arts Society Trent Valley,

We thought we would share an update on our Reflection Garden.

We have designed the garden. We have decided to have 3 smaller reflection pools. They should arrive this week. We have decided on a planting scheme and started to sow some of the seeds.

We have been experimenting making a Tree of Life Sculpture. We have used willow rings, flower wire and macrame wool. We were very happy with the prototypes. We all decided that we preferred the metal models. So we will use this to make the larger model.

The Thursday group have made the large willow wreath ring, ready for the Friday group to start adding in the metal tree.

We are now hoping for this rain to stop so we can get out and start doing the landscaping!

Regards

Nicola and the Friday Group.
